

Participation in Reading Recovery Research

Student name: _____

Your school will be participating in a research project for students who received Reading Recovery® in 1st grade or were part of a sample group that were compared to Reading Recovery® students. We will be sending data to The Ohio State University International Data Evaluation Center and the University of Delaware Center for Research in Education and Social Policy who are facilitating the evaluation studies on our behalf and who will compile results.

We will be sending them your child's 3rd and 4th grade Reading / Language Arts assessment scores and data about the school's curriculums in 2nd, 3rd, and 4th grades.

We have been assured that no names of individual students, teachers, or schools will be used when presenting results. Private information will be treated according to federal student privacy laws and school district guidelines. We have been assured that all publicly released data will be presented in an aggregated format.

At the bottom of the page please indicate if we have your permission to use your child's data.

Sincerely,

Reading Recovery Site Coordinator or Designated District Official

The Ohio State University Reading Recovery Principal Investigator

Please check a response below, sign, and return to school

YES, you have my permission to share my child's data

NO, you don't my permission to share my child's data
